25X1 DATE OF INFO.

25X1 PLACE ACQUIRED

1. There is located at Januszkowice (Oderhain-P51/X98) a newly opened shipyard designed to construct small vessels. It is equipped to build up to ten vessels at one time. At present one shift of men (approximately 100) is employed at the yard. Attempts to mobilize a second shift have failed because of a lack of workers. P. Filusz, a Pole, is in charge of the shipyard.
2. The construction of two vessels (haulers) (sic) was begun in May or June 1952. They will be approximately 15 - 20 meters in length. The yard builds only the hulls and installs the engines (250 HP) which are brought in by rail. The vessels are being built on the Dutch model of the same type and should be completed by October 1952.
